

Speedy Home Studies

Heritage Adoption Services is delighted to provide home studies in quick order and at reasonable cost. We are licensed in Alaska, Oregon, and Washington to provide Home Studies and Post Placement Reports.

We know that you are anxious to begin the process of being able to adopt a child and we will make every effort to make the home study experience move as quickly as possible. A lot depends on you, however, because a worker will not be assigned to your case until all documents are in our office and fees are paid.

Once we have received all the documents and record checks for an applicant family, we will schedule a home visit within a week or two at most, and then write up the report. When we know that a baby is due "now", or is already in the family's care, we are happy to assist you in acquiring an expedited home study. An **expedited home study** means that your case moves to the top of the list for assignment and completion.

Rates for mileage are determined by the current federal reimbursement 'per mile' rate which fluctuates frequently, and travel time (round trip) is \$30 per hour outside the Portland Metropolitan Area. Those fees shall be paid at the time of the home visit directly to the home study worker, whenever necessary. We make every effort to assign a home study writer who lives as near to you as possible. Whenever necessary, mileage is billed from the writer's point of origin to your home and back to the point of origin.
